

SOCIOMETRY WEEKEND

This 3-day Weekend is designed to educate participants on the use of sociometry to engage clients and create an environment that allows them to feel safe and connected enough to take more risks and move forward in their healing and/or recovery.

We will specifically look at the timing of clinical interventions, and participants will learn techniques to help address issues of isolation, cliques, transferences, and stuck energy in the group, family or in the self. Participants will leave the workshop with a strong set of skills to address interpersonal dynamics that they can bring directly back to their clinical work.
(No prior sociometry or psychodrama experience necessary to attend.)

LOCATION, DATES AND TIMES:

Costa Mesa, CA

June 7-9, 2019
