

San Diego Psychodrama Training Group for Professionals

In this ongoing group *for professionals only*, participants will be trained on the theory and practice of sociometry, psychodrama and group psychotherapy, will have the opportunity to practice these techniques and to explore how they can be applied to their current clientele.

This group can serve as a place to find “role relief” from always being the therapist/counselor, and can provide a safe, supportive place to pursue personal and professional growth.
